WHAT IS LIFTING EQUIPMENT INSPECTION?

Lifting Equipment inspection involves a series of tests performed on load-handling devices such as cranes, mobile cranes, forklifts, shackles and hooks. Using experienced inspectors, I Safety ensure that the lifting equipment's are safe. Regular thorough examinations of all equipment are carried out by experienced inspectors.

WHAT ARE THE KEY BENEFITS OF GETTING YOUR EQUIPMENT INSPECTED?

- Equipment safety ensured, especially regarding users
- Potential risks assessed, appropriate precautionary measures determined
- Numerous complex requirements complied with
- Independent advice and support given by knowledgeable technical experts in all critical areas
- Assistance in planning renewal of equipment
- Benefit from experts who are aware of the latest technology and equipment
